

TUSKBLADE®

TUSKBLADE KITCHEN KNIVES

Yangjiang Yangdong Damashi Industrial and Trade Co., Ltd.

TUSKBLADE®

Yangdong District Damashi Industrial and Trade Co, Ltd company is located in Yangjiang City, Guangdong Province, which is a famous knife manufacturing center in South China.

Based on years of experience, research, and production development, we have established a strong reputation for producing high-quality knives and kitchen accessories on domestic and international markets, prioritizing excellence in every aspect of manufacturing process. From the selection of finest materials to the final production, our team of skilled designers and craftsmen strictly adhere to quality control measures to deliver knives that are durable and functional, ensuring that each product that leaves our factory is of unparalleled quality.

Our factory, equipped with the best machinery and a skilled workforce, produces a wide range of high-quality products that meet the diverse needs of our esteemed customers around the globe. We also specialize in producing custom-made knives, catering to the unique requirements and preferences of our customers. Our experienced staff ensures a seamless custom manufacturing experience from start to finish.

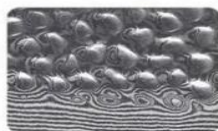

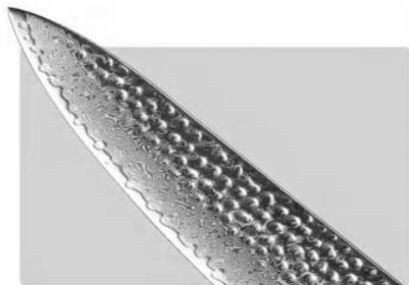

As a responsible manufacturer, we implement environmentally friendly practices in our production processes, ensuring minimal waste and promoting sustainability. Our knives are made from high-quality stainless steel, guaranteeing durability and corrosion
